

# Easter Hanging Decorations

If you have a little tree or even a twig to hang light decorations on, why not make a few?

- Choose a suitable shape, whether from a child's colouring book or a free line drawing on the internet (or draw one perhaps)
- Cut it out from cardboard and decorate with pens, paints, glitter, ribbons, stickers (whatever is most suitable for the age and skill of the maker).

Alternatively

- Cut it from felt and embellish with simple embroidery stitches (examples shown in the photographs).
- Cut a second shape the same and sew them together to give more stability, and if desired, stuff lightly with toy stuffing just before the last couple of centimetres of stitching together.

Add a hanging loop made from string, yarn, thin ribbon or cord.
